14 YEARS OF EXPERIENCE MANAGING CRITICAL DATA SYSTEMS

- Multilingual (native EN/ES) full stack software engineering manager with work authorization for USA and MERCOSUR
 - » Designed and carried out to completion many mission-critical projects in healthcare, education, and human rights.
 - » At OpenAI and Google, trained ChatGPT and Gemini to know web programming and handle Spanish audio
 - » Panelist, hackathon awardee, gave hundreds of technical and non-technical presentations to thousands of people
- Experienced manager for technical and non-technical international teams with budgets over US\$5M
 - » Created and led several dozen new technical project teams and applications, many that are still running many years later
 - » Agile, test-driven development in Typescript, Express, Node, Jest, Vite, React, Cypress, i18n
 - » Professional under stress of product launches, international expansions, federal audits, disaster response
 - » Forward-thinking, good eye for technical/regulatory pitfalls; cross-references compliance plans
 - » Managed company-wide purchasing for technology products and services
 - » Authored plans reducing department IT expenses by >70% and boosting client retention
- Over a decade as system admin for Ubuntu, Arch, Red Hat, Debian, Void, Qubes/Xen, Tails, OSX.
 - 9 years managing protected healthcare data (patient info) & finance data (trading and ledgers)
 - 9 years managing environmental data (autecological and synecological)
 - 6 years of experience managing ETL pipelines in Python and R, and machine learning
 - 6 years of experience managing GIS pipelines, both static and dynamic, web and print
 - 4 years of experience with hardware radio and networking for multiple ISPs, Ubiquity, SBCs, ARM and 32 bit systems.

EDUCATION

2021-2023	Master of Science, Data Analysis & Visualization City University of New York (thesis pending)	Statistics, Machine Learning, Python, R, D3, matplotlib, seaborn, ggplot, $\LaTeX$, Leaflet, Demographic calculus, GIS
2019	Social Justice Leader Transform Finance	
2018	Cert. Infrastructure Disaster Management Texas A&M University Engineering	GIS
2015	Bachelor Political Science & IR (quantitative) State University of New York	SPSS, R, Statistics
2011	Bachiller Economics & Business Management Mar del Plata, Argentina	Calculus, Statistics
2010	Cert. Web Programming HILET	Asp .NET, AJAX, Javascript

SELECTED EXPERIENCE

GOURMET CUSTOM SHOP » LEAD FULL STACK & DATA ENGINEER

2025-	Created modular document generation system	Python, Postgres, NGINX, Latex, Stripe, Docker, Ansible, Kafka
2025-	Created rapid machine vision classifier for TBs of data	Julia, Tensorflow, Weaviate, Bash, Docker, Ansible
2025- 2024- 2023-2025	Created import/export software Created food systems management platform Created fintech project management platform	React, Vite, Typescript, Express, Postgres, NGINX, Docker, Jest, Cypress, i18n, Ansible
2023-2024	Modernized e-learning platform	PHP, Typescript, React, Express, MySQL, Postgres, NGINX, Docker, i18n
2023-2024	Created peer-to-peer clothing marketplace	React, Vite, Typescript, Express, Postgres, NGINX, Docker, Kafka, i18n

2023	Systems integration for major internet service provider	Ubiquiti, Ruby on Rails, Vue
2023-2024	Created web scrapes for major clothing manufacturer	Python, Django
2023	Created GIS for political marketing agency	Python
2019-2021	Housing Data Coalition member	R, Python, Postgres, Airtable, D3
2019-2021	Anti-Eviction Mapping Project member	R, Python, Leaflet, Mapbox, QGIS, Javascript, D3, PostGIS
2019-2022	NYC Mesh Net member	Networking, RF, Ubiquiti, Python

CHORDLINE HEALTH » DATA ENGINEER

2025-2026	Lift-and-shift DB across cloud architectures	MS SQL Server, SSIS, Talend, AWS
-----------	--	----------------------------------

GOOGLE GEMINI LABS » SENIOR AI TRAINER

2025	Trained Gemini LLM	Machine learning, Javascript
------	--------------------	------------------------------

OPENAI » SENIOR AI TRAINER

2024-2025	Trained ChatGPT LLM	Machine learning, Javascript
-----------	---------------------	------------------------------

ADIRONDACK CREAMERY » NETWORK ADMINISTRATOR

2025	GIS analysis	Airtable
2024	Implemented DMARC	DMARC
2023	Migrated email stack, domain	DNS, Mailservers

VIOLENCE INTERVENTION PROGRAM » DATA & RESEARCH MANAGER 2020-2023

2022	Consolidated all incoming data into a clean pipeline	Salesforce, FormAssembly
2021	Helped launch a new clinical healthcare team	
	Handled all reporting, data analysis, dashboards, and Salesforce Lightning instance	Salesforce, Airtable, Python, Javascript, D3
	Handled data compliance and federal audits	Compliance, Audits

IMPACCT BROOKLYN » DATA MANAGER 2018-2020

2020	Hackathon awardee, NYC Open Data	
2019	Panelist on data for major conference	
2019	Led technical team from Columbia University	Javascript, QGIS, Mapbox
2019	70,000x improvement in data analysis turnaround time	Airtable, SPSS
2019	Same-day mitigation plan for >\$3M cybersec exposure	Cybersec, compliance
	In charge of most data pipelines and data systems	QGIS, Postgres, SPSS, D3, Airtable, Python, Javascript

AMERICAN RED CROSS » SUPERVISOR & GEOSTATISTICAL ANALYSIS 2016-2020

2018	Created a risk analysis and team for it, still ongoing	QGIS, Airtable, SPSS
2018-2020	Supervised BI & GIS for natural disasters	PowerBI, ArcGIS
2017	Created an analog GIS for live wildfire tracking	ArcGIS, Radio
2017	Created a volunteer/event management system	Airtable

STARTUP TECH CONSULTANT

2015	Cornell University Ext - GIS project	
2014	ICSD - Set up entire sales data pipeline	Salesforce, Relsci
2012-2015	Full stack websites & tech setup for half a dozen startups	Wordpress, Drupal, CiviCRM

ROCKEFELLER UNIVERSITY » DEVELOPMENT INTERN 2013-2014

	Assisted the Women & Science Initiative	Blackbaud, LexisNexis, RelSci
	Digitized every last paper file (thousands)	Blackbaud
